

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims

1-20. (Cancelled)

21. (Currently Amended) A method for managing sales activities, said method comprising the steps of:

storing in a database information relative to each of a plurality of predetermined maturity stages of a sales transaction with a specific customer, said maturity stages corresponding to intermediate goals set for achieving the sales transaction;

retrieving a portion of said information, said portion corresponding to at least one of said plurality of predetermined maturity stages; and

displaying said portion,

wherein in a case where an input is received which represents that a certain maturity stage is achieved in the sales transaction with the specific customer, information corresponding to this input is stored in said database in said storing step.

22. (Previously Presented) The method of Claim 21, wherein said plurality of predetermined maturity stages comprises:

nine predetermined maturity stages.

23. (Previously Presented) The method of Claim 21, wherein said plurality of predetermined maturity stages comprises:

- a customer-connection making stage;
- a customer-relations making stage;
- a customer research stage;
- a customer attraction stage;
- a product research stage;
- an issue resolution stage;
- a formal proposal stage;
- a problem resolution stage; and
- a contract forming stage.

24. (Previously Presented) The method according to Claim 21, wherein said information relative to each of a plurality of predetermined maturity stages of a sales transaction with a specific customer comprises:

status information relative to each of a plurality of predetermined maturity stages of a sales transaction with a specific customer.

25. (Previously Presented) The method according to Claim 21, wherein said information relative to each of a plurality of predetermined maturity stages of a sales transaction with a specific customer comprises:

at least one of transaction status information and transaction quality information.

26. (Previously Presented) The method according to Claim 21, further wherein said information relative to each of a plurality of predetermined maturity stages of a sales transaction with a specific customer comprises:

completion status information.

27. (Previously Presented) The method according to Claim 21, wherein said information relative to each of a plurality of predetermined maturity stages of a sales transaction with a specific customer comprises:

scheduled stage completion time.

28. (Previously Presented) The method according to Claim 21, wherein said information relative to each of a plurality of predetermined maturity stages of a sales transaction with a specific customer comprises:

stage completion delay information.

29. (Previously Presented) The method according to Claim 21, wherein said information relative to each of a plurality of predetermined maturity stages of a sales transaction with a specific customer comprises:

recommended changes in action relative to completing a particular stage.

30. (Previously Presented) The method according to Claim 21, wherein said information relative to each of a plurality of predetermined maturity stages of a sales transaction with a specific customer comprises:

business target information.

31. (Previously Presented) The method according to Claim 21, wherein said information relative to each of a plurality of predetermined maturity stages of a sales transaction with a specific customer comprises:

sales scenario data relative to a particular customer.

32. (Currently Amended) A sales-activity management system, comprising:

- a storing unit configured to store in a database information relative to each of a plurality of predetermined maturity stages of a sales transaction with a specific customer, said maturity stages corresponding to intermediate goals set for achieving the sales transaction;
- a retrieving unit configured to retrieve a portion of said information, said portion corresponding to at least one of said plurality of predetermined maturity stages; and
- a displaying unit configured to display said portion,

wherein in a case where an input is received which represents that a certain maturity stage is achieved in the sales transaction with the specific customer, said storing unit stores information corresponding to this input in said database.

33. (Previously Presented) The system of Claim 32, wherein said plurality of predetermined maturity stages comprises:

- nine predetermined maturity stages.

34. (Previously Presented) The system of Claim 32, wherein said plurality of predetermined maturity stages comprises:

- a customer-connection making stage;
- a customer-relations making stage;
- a customer research stage;
- a customer attraction stage;
- a product research stage;
- an issue resolution stage;
- a formal proposal stage;

a problem resolution stage; and
a contract forming stage.

35. (Currently Amended) A computer readable recording medium storing a program for controlling a computer to execute the steps of:

storing in a database information relative to each of a plurality of predetermined maturity stages of a sales transaction with a specific customer, said maturity stages corresponding to intermediate goals set for achieving the sales transaction;

retrieving a portion of said information, said portion corresponding to at least one of said plurality of predetermined maturity stages; and

displaying said portion,

wherein in a case where an input is received which represents that a certain maturity stage is achieved in the sales transaction with the specific customer, information corresponding to this input is stored in said database in said storing step.

36. (Previously Presented) The method of Claim 35, wherein said plurality of predetermined maturity stages comprises:

nine predetermined maturity stages.

37. (Previously Presented) The method of Claim 35, wherein said plurality of predetermined maturity stages comprises:

a customer-connection making stage;

a customer-relations making stage;

a customer research stage;

a customer attraction stage;

Application No. 09/964,585

Reply to Office Action of September 8, 2004

a product research stage;

an issue resolution stage;

a formal proposal stage;

a problem resolution stage; and

a contract forming stage.
